> Instructions for collection

- Ring the bell at the gate of our Expedition Entrance (third gate on right-hand side)
- Upon opening of the gate, please park the truck outside and walk inside the warehouse for registration
- Truck driver must have a correct reference number for loading.
- After registration, truck driver must wait in truck for instructions of our warehouse staff to come into the warehouse
- Truck driver has own responsibility for opening the truck (removing of roof, sides and /or top rail), this must be done outside of the warehouse
- Upon loading truck driver must be present and truck driver must guide the loading.
- Required dunnage (wood) for loading can be provided by us.
- CMR document to be collected by driver at administrative office after loading.

> Loading instructions

Please arrange truck collection for agreed upon collection date.

- For easy loading we prefer **open trucks**.
- Loading will be done from the top by magnet cranes or loading by forklift
- No restriction on dimensions.
- Extendable trucks are allowed.

In case of closed trucks take into account following:

- Plates with maximum 6 meter length can be loaded from side by forklift
- Plates > 6000 mm will be loaded from the top by magnet cranes, so trucks must be suitable to be completely open from top and back.
- Maximum width 2450 mm, larger width cannot be loaded in closed trucks.

> Safety rules:

Truck driver must follow all safety rules and instructions applicable in our warehouse.

No smoking

Limited speed

CAUTION:
Overhead Crane
Area

Headprotection

Footprotection

Reflective vest

- Truck loadings will be loaded as per Dutch regulations
- After loading truck-driver is responsible for securing and lashing and the truckload.
- Truck driver must always strictly follow all instructions of our warehouse staff.
- Please note that containers cannot be loaded at our site.
- Trucks with partial loads should have enough free space for the loading of the goods to be collected from our warehouse
- For any additional questions please get in touch with your ESC contact person.

Note: In case a truck cannot be loaded safely or properly we reserve the right to refuse truck loading. We will only load trucks in a safe way as per applicable Dutch law. No costs can be claimed for unsuitable trucks.

Please note when you are arranging collection from our facility yourself, your truck should be preannounced to our sales department 2 working days before loading. Trucks that are not preannounced may not be loaded on the desired day, forthcoming costs cannot be claimed with Kröger Staal BV, Europe Steel Center.
